CAREER OPPORTUNITY

Job Title: Machine Operator
FLSA Status: Non- Exempt
Shift: Night Shift; M-W 5 PM to 5 AM, Thurs. 4 PM to 9:30 PM
Reports To: Supervisor
Location: 1410 E. Pine Ave., Meridian, ID 83642

About Micro 100 Tool

Micro 100 is an OEM designer and manufacturer of precision, carbide cutting tools. Employees at Micro 100 are given opportunities to learn and grow in their career through in house training programs that will help the employee learn all aspects of our manufacturing processes. Micro 100 offers an extensive benefits package including medical, dental, vision, EAP, life, short and long-term disability, 401(k), vacation, personal leave, merit pay, and monetary awards.

Position Overview

The Machine Operator will be trained to set-up and operate precise manual and computerized (CNC) grinding machinery. The Machine Operator operates, maintains and controls the equipment used in manufacturing through manual settings or computerized parameters. Parts produced are checked for correct tool geometry using metrology gauges and instruments.

General Responsibilities

- Break down and set-up the designated machine tool completely, and properly, in a timely manner to fulfill production requirements and meet quality requirements of product.
- Machine set-up includes;
 - Changing out the tool holding system
 - Change or perform necessary wheel dressing and truing
 - Make necessary adjustments to the machine tool for operation
- Troubleshoot machine problems to determine actual faults
- Report to supervisor(s) regularly, keeping them updated on production activities and progress
- Read job traveler and blueprint to ensure accuracy in production task
- Inspect finished parts for correct tool geometry and document inspection results
- Verify machines are running properly, make needed adjustments and perform preventative maintenance
- Job also includes other duties as assigned

Qualifications

- Education: High School Diploma or GED
- Mechanical abilities to set up & operate machinery
- General mathematical skills
- Basic computer skills
- Detail oriented
- Personal initiative, problem solving and analysis skills
- Ability to complete projects on time
- Ability to work collaboratively and maintain effective working relationships with co-workers.
- Strong desire for continued growth and learning

Physical Requirements

- Physical dexterity and manual activity
- Ability to stand for long periods of time
- The team member may be frequently required to walk, bend, squat or twist as well as repetitively push or pull.
- The team member must be able to frequently lift up to 25 pounds, and occasionally up to 50 pounds with assistance.
- Vision corrected to 20/20
